ENJOY SEATING PERFORMANCE.

interstuhl

# YOSTER<sup>IS3</sup> SOUND APPEARANCE, FOR ULTIMATE PERFORMANCE.

**Values that shape. Values that drive.** YOSTER<sup>IS3</sup> stands for reliability, quality and timelessness. But YOSTER<sup>IS3</sup> also stands for perfect seating quality, functional efficiency and top seating performance. All this makes YOSTER<sup>IS3</sup> an ideal solution for people who are looking for a chair that does not dominate the room, but just fits, with effortless composure, into classical working environments. It is the perfect chair for everyone who wants to sit pleasant and healthy. YOSTER<sup>IS3</sup> has an unobtrusive presence and emanates calm and security. YOSTER<sup>IS3</sup> is also a high-performing chair that has the functional and ergonomic strength which allows people to work comfortably.

# SEATING WITHOUT COMPROMISE.

**YOSTER<sup>IS3</sup> puts an end to difficult decisions.** YOSTER<sup>IS3</sup> does not compromise at all, in terms of the clear and simple design, the easy-to-use functions, the reliability, or the ergonomics and comfort. YOSTER<sup>IS3</sup> is inviting and comfortable. The YOSTER<sup>IS3</sup> office swivel chair is perfectly ergonomically equipped. Its soft upholstery and generous feeling of spaciousness make it wonderfully comfortable. YOSTER<sup>IS3</sup> has many features that make working more pleasant. It adjusts perfectly to the body in every aspect and its high-performance synchronous mechanism and high quality finish, together with the integrated headrest, provide an especially comfortable experience. YOSTER<sup>IS3</sup> represents uncompromising seating performance, which ensures the best possible efficiency at work.

# TIMELESS, MODERN AND BEAUTIFUL.

**Something that has character can afford to be unobtrusive.** YOSTER<sup>IS3</sup> is high-quality, elegant and clear-cut. This chair has a timeless modernity, with classical proportions and a design which is reduced to its most simple form. YOSTER<sup>IS3</sup> emanates harmony. Every detail is perfectly coordinated. YOSTER<sup>IS3</sup> is self-explanatory. Its functions are easy to understand and read. Its clear lines, not least its stylish back brace, give YOSTER<sup>IS3</sup> a very distinctive appearance. In this way, YOSTER<sup>IS3</sup> combines restraint with an expressive individuality.

# PERFECT FOR EVERY USE.

The YOSTER<sup>IS3</sup> can be used everywhere in the office. Only when you use a chair, you find out how good it is. YOSTER<sup>IS3</sup> reveals its strengths in particular when a seating concept is required that looks equally good, regardless of the way it's used – whether cantilever, four-leg visitor chair, office swivel chair or office swivel armchair with integrated headrest. Each type of YOSTER<sup>IS3</sup> is individual and well thought through and yet part of a total high-performance concept.

For training sessions, meetings or discussions, YOSTER<sup>IS3</sup> visitor chairs convey calm and elegance – the ideal office visitor chairs and the ideal equipment for conference rooms. In both the cantilever and four-leg version, YOSTER<sup>IS3</sup> is steady and comfortable, and at the same time easy to move around and to stack (4 chairs).

YOSTER<sup>IS3</sup> is available as an office swivel chair or office swivel armchair with integrated headrest. With its high-quality materials, robust surfaces and very high level of craftsmanship, YOSTER<sup>IS3</sup> is a safe solution – both at the moment of decision, and in the future. YOSTER<sup>IS3</sup> gives you that feeling of reassurance that you're doing everything right.

**SIMPLE,  
GOOD!**

**It's often the unpretentious things that give you prolonged pleasure.**

What is it that makes an object capable of yielding a high degree of satisfaction for years to come: an object that is both unobtrusive and yet highly efficient? It's the concentration on the essential. This applies especially to YOSTER<sup>IS3</sup>. It sets the standard for good seating. It's the faithful companion at your side, day by day. It doesn't use any unnecessary gimmicks, but concentrates on the job in hand: to support people while they work.

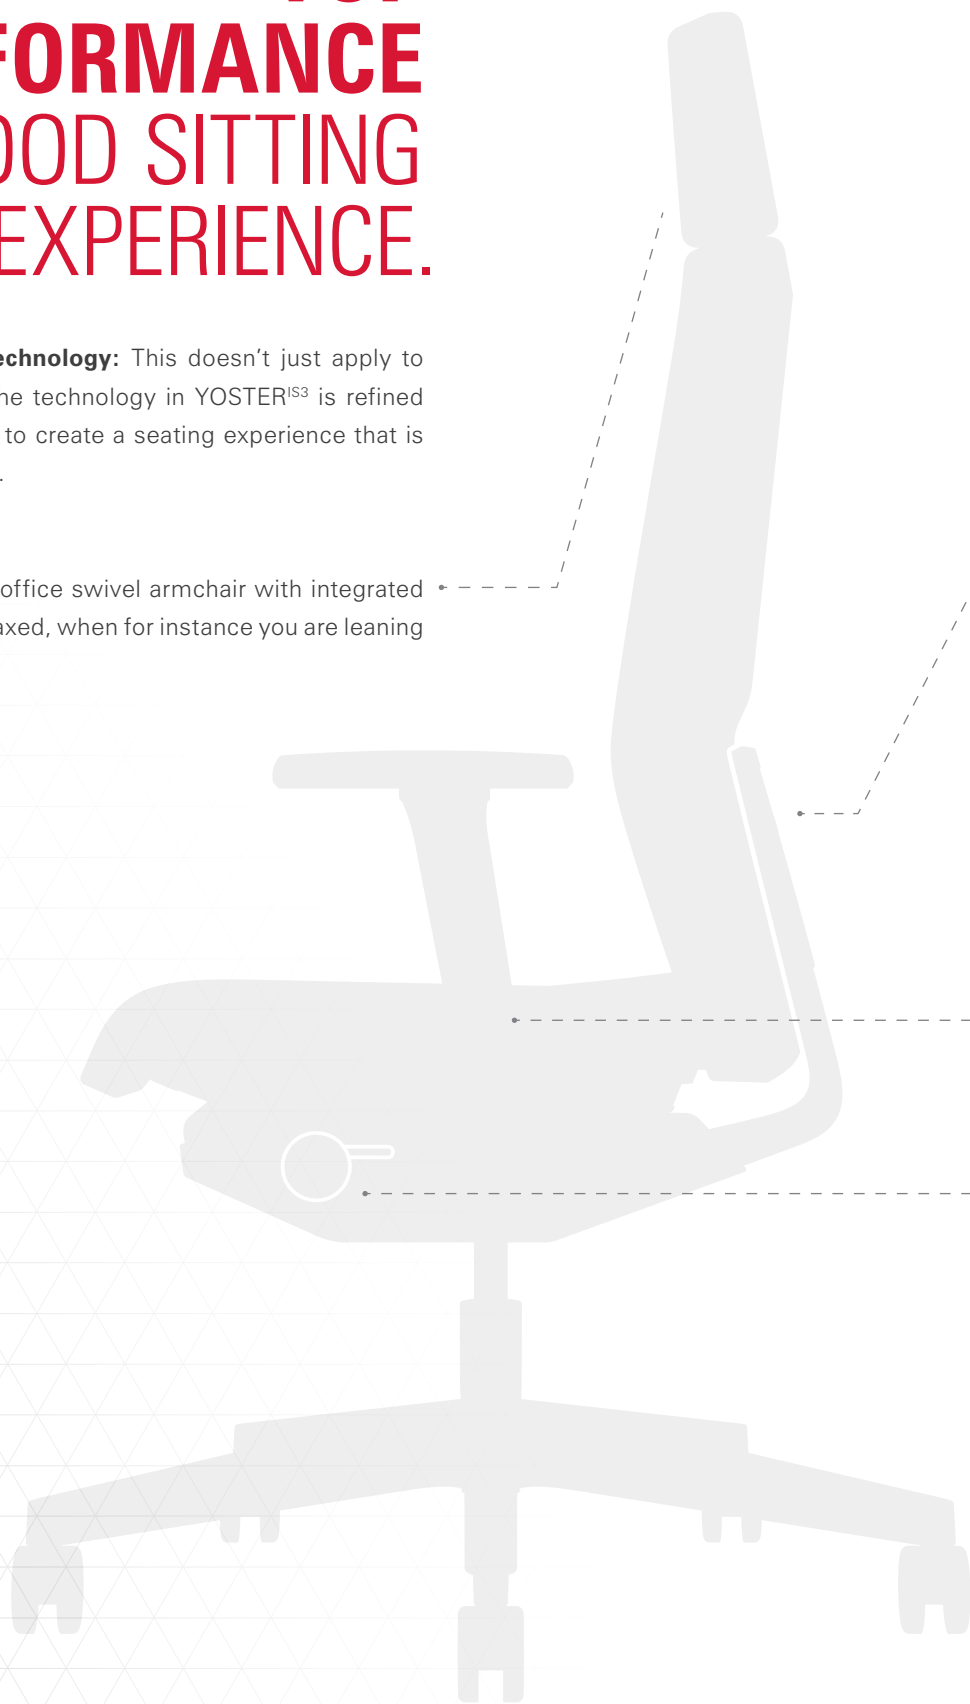

# TOP PERFORMANCE FOR A GOOD SITTING EXPERIENCE.

**Performance is a question of technology:** This doesn't just apply to sport, it also applies to chairs. The technology in YOSTER<sup>IS3</sup> is refined down to the last detail, designed to create a seating experience that is efficient, comfortable and healthy.

**Best support from head to toe:**

YOSTER<sup>IS3</sup> is also available as an office swivel armchair with integrated headrest. So you will be totally relaxed, when for instance you are leaning back and talking on the phone.

**Perfect support for the back:** YOSTER<sup>IS3</sup> adjusts perfectly to the shape of the user's back. By individually adjusting the counterpressure of the backrest, both light and heavy users will be perfectly supported. A snap lock mechanism allows the height of the backrest to be quickly and easily adjusted – even while seated.

**Targeted support:** YOSTER<sup>IS3</sup> has an optional lumbar support: its depth can be regulated steplessly by means of a handwheel. The height of the lumbar support can also be adjusted by changing the height of the backrest.

**Weightless working:** The sophisticated synchronous mechanism gives you a feeling of weightlessness when you sit on a YOSTER<sup>IS3</sup>. Both chair and seat follow the movements of the body, and the large opening angle lets you lean back with ease.

**Ergonomically correct sitting:** The seat depth is adjusted by sliding the seat, and this ensures that the seat area is perfectly adjusted to the size of the body. The seat inclination adjustment adapts the seating angle to the working position. Both features make a significant contribution to the comfort of sitting and supporting the body.

**Support for arms and shoulders:** The optional 2D or 4D armrests are adjustable in terms of height, width and rotation, ensuring that the arms, shoulders and neck are comfortable and well supported.

**Use ergonomic functions properly:** Even the best ergonomic functions are no use at all if you do not understand how to use them. YOSTER<sup>IS3</sup> has an innovative, simple and self-explanatory system of levers. This ensures that the ergonomic functions result in a healthy way of sitting.

# YOSTER<sup>IS3</sup> PRODUCT OVERVIEW.

**550Y**  
Visitor chair  
cantilever with  
plastic armrests

YOSTER<sup>IS3</sup> is designed with a clarity of shape and structures, that are easy to read. The classical proportions combined with the robust surfaces result in seating with a distinctive personality. On this project, all members of the design team ensured that the chair would fulfill its destiny to be an office chair with excellent functional efficiency, and that it would blend harmoniously and unobtrusively into every architectonic environment.

Sven von Boetticher was born in 1974 and studied Industrial Design at the State Academy of Art and Design in Stuttgart. In 2011 he founded his own design studio, called ID AID. Since then he has been designing furniture, objects and lighting for well-known manufacturers, working with his design team not just on product design, but also in the field of architecture and interior design. He constantly strives to make connections between passion and quality, and also between innovation and sustainability.
